BENCHMARK SPECIFICATIONS parallel series

FRAME CONSTRUCTION

The frame is constructed completely of 7/8" Engineered Paneling, using an interlocking construction that eliminates joints.

UNIT FOAM

The top foam for the upholstered top unit is a 1/2" thick polymeric foam 2.2 lbs minimum density and 21-26 ILD. For laminated tops, there isn't any foam. On side of the frame, the foam is 1/2" thick polymeric foam 2.2 lbs minimum density and 21-26 ILD. All foam is covered with a moisture barrier. All foams are guaranteed for 35 years and are all flame-retardant to meet major state fire codes (Cal Bulletin 117).

MOISTURE BARRIER

Moisture barrier is a waterproof polyurethane membrane laminated to the polymeric urethane foam. This membrane has a tensile strength of 8500 PSI (ASTM D-882), elongation rating of 450% (ASTM D-882); burst strength of 100 PSI plus, and a tear resistance of 425 PSI (ASTM D-882). It is waterproof, mildew-proof, and washable.

ASSEMBLY / DISASSEMBLY / REPLACEABLE COVERS

All upholstery fastens with hook and loop tape, facilitating removal and replacement of covers. Upholstery seams are single lock stitched and double lock stitch with reinforcement tape over the top of all seams without welt. All components are assembled and disassembled by tightening or loosening the thumbscrews into steel receivers (t-nuts) creating metal to metal connection. No tools are needed.

WARRANTY

Warranty on all products against defects in materials and workmanship, and against structural damage incurred through normal use, for a period of 15 years from date of purchase. The warranty covers the structure of the furniture: The laminated-veneer frame; the construction of the arms, base, back, and all fasteners. The warranty also covers the foam against defects in its manufacture and composition and against "flattening" (not maintaining its original shape) for this same 15-year period. Under this warranty the vendor will at its option either replace or repair furniture to it or will supply the customer with replacement parts. Fabric and all items beyond vendor's control are not covered by this warranty.

SHIPPING INFORMATION

Transformations® prefers to utilize a blanket-wrapped method for shipment to reduce waste and lessen our impact on the environment. This method also allows our customers to obtain LEED points towards their certification. We are however, willing to accommodate our customers if it is preferred that we carton-ship our product.

ADDITIONAL OPTIONS

CAL 133 fabric treatment can be applied for an additional fee per yard.
