

RIDGE 3

RIDGE is designed to be flexible, to allow you to utilize your lobby space to it's maximum. All Ridge components work with all others, no matter how you shape, curve or align them.

Transformations furniture is always designed around our innovative & patented **TRUE RENEW.**[™] technology, so that, thanks to the easiest renewable fabrics systems available anywhere, your facility will continue looking fresh and clean long into the future.

So, go ahead, mix it up, with single, double and triple seats, 30° and 45° wedge seats, 30°, 45° and 90° benches and tables, a variety of arm styles, spanners with upholstered or solid surface tops, AC/Media options, gangable ottomans, computer tablet arms and several foot & caster choices.

Like the world around us, the possibilities are endless—and beautiful. If you'd like our help arranging things, just call (800) 440-9337.

RIDGE 3 SPECIFICATIONS signature series 
FRAME

The frame is constructed with 7/8" engineered paneling, using an interlocking construction. There is a support truss system under the two outside end springs to provide resistance and a uniform seating platform. The springs are linked together with two 12-gauge tie wires. The back support system is covered with woven versare fabric with one piece of high-density polymeric foam. The outside back of the frame is covered with woven tyar and an additional piece of high-density polymeric foam. Legs are attached with steel bolts and feet have plastic or metal glides.

SEAT

Seat cushions are of 5", high-density, polymeric foam. On the top and bottom of the core is placed a 1 1/2" polymeric 2.2 minimum-density foam which is covered by a laminated, polyurethane, moisture-barrier membrane. Uniform seating comfort is provided by a dual-leverage amplification Spring System.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

ASSEMBLY AND DISASSEMBLY

No tools are needed. All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the tamper-proof interlocking state. Assembly can be completed within minutes without the usage of tools, and all upholstery fastens with hook and loop tape, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

ADDITIONAL OPTIONS

CAL 133 fabric treatment can be applied for an additional fee per yard.

This is an abbreviated specifications list. For complete specs, contact Customer Service.
